

National Lloyds Insurance Joins EZLynx Rating Platform

DALLAS, April 19, 2018 – National Lloyds Insurance today announced its inclusion on EZLynx’s comparative rating platform, currently in Tennessee and coming soon to Arizona, Nevada and Texas. National Lloyd’s presence on the platform will allow its independent agents to generate instant quotes and quickly compare them against other carriers.

“National Lloyds’ mission is to make the quoting and underwriting process easier for independent agents and customer service representatives,” said National Lloyds Director of Field Operations Joe Palczewski. “EZLynx is used by insurance agents across the nation, and the software’s user-friendly features make it easier for our independent agents to provide their customers with a great policy at a competitive price.”

The comparative rater includes more than 176 carriers in the U.S. and can quickly generate up to four sets of coverages and deductibles for each carrier. The rater also provides independent agents with an easier way to leverage third-party data to enhance the quoting process.

Agents can add National Lloyds to their list of default carriers by following the step-by-step wizard on their account dashboard, or by contacting their EZLynx customer service representative.
